

Grameen Gazette

Just 3 coffees a week will **kick-start a farming family** like Ms. Salat and her husband Mr. Chor in Cambodia.

Ms Salat and Mr. Chor have just sold their first 64 chickens!!!

Thanks to your generosity, we can kick-start our Village Grower Project which will create many more farming family businesses to ensure sustainable income. By 2020 this project aims to support over 2,000 people - with thousands more in the future.

It is now critical that we build:

- 2 sheds for the chickens who lay eggs
- 1 shed for growing newly hatched chicks

We also need to set up electricity and build a new well for clean water.

We know that you have been following us and want to make an impact. Now, help us do just that!

For just 3 coffees a week (\$11), **Your Heroic Donation** will pay for 1 village farmer family like Ms. Salat and Mr. Chor to start their chicken rearing business and increase their family income by 45% in the first year.

You can also support us in the following ways:

Activist

Our goal is to use microfinance and social business to build a socially and economically inclusive 'World of Three Zeroes' where all humans lead dignified, meaningful lives
